

NETWORK FOR CLEAN ENERGY TRANSITION IN PAKISTAN: RESEARCH AND ADVOCACY

#### **ENGAGEMENT ROADMAP 2022**

Network for Clean Energy Transition in Pakistan: Research and Advocacy

@NCET\_Pak

Network for Clean Energy Transition in Pakistan: Research & Advocacy

# Founding Members of NCET under three Working Groups

Renewable Energy Working Group

Corporate
Sustainability
Group

Natural Capital Impact Group

### What we Aspire to Do?

Conduct Evidence-based research on energy & climate issues

Capacity building through knowledge sharing & consultation dialogues

Workshops on "Policy Tools" and "Assessment Frameworks" for CET

Advocacy & communications outreach for energy & climate actions

Support businesses and enhance bilateral co-operations

**Public Sector** 

**Corporate Sector** 

**Academia** 

Think Tanks/CSOs.

1,

## NCET Research Themes 2022 <u>Energy Security</u>

# Annual State of RE Report (ASSR)

Status of RE in 2022
Policy Landscape for RE
Market and Industry Trends
Off-Grid Solutions
Technology Outlook
RE and Carbon Intensity

# Pakistan Gas sector Strategy

Initial Level Consultations
Growth and Challenges
Existing opportunities
Just Energy Transition

#### **Electric Vehicles**

Electric Vehicle Market Readiness of Pakistan

Socio-Economic Impacts of Pakistan Electric Vehicle Policy

Battery and Hydrogen Fuel Technologies

### NCET Research Themes 2022 Energy Governance and Market Reforms

Competitive Trading
Bilateral Contracts Market
(CTBCM)

Power Wheeling in Pakistan

Competitive Bidding of

# NCET Research Themes 2022 **Energy Efficiency and Decarbonization**

### **Energy Efficiency**

Efficient Lightening
Industrial Efficiency
Active and Passive Energy
Conservation

# **Industrial Decarbonization**

Hard to Abate Sectors
Industries in Transition
Informal SMEs
Just Energy Transition

#### **Green Infrastructure**

Grid Modernization
Energy Storage
Technologies
Climate Smart Houses
Clean Cooking

### **NCET Research Themes 2022**

### **Energy Finance**

# Green Financing Mechanisms

Tools and Instruments

Debt Swaps, Green Bonds, De-risking etc.

**ESG** Reporting

**Carbon Markets** 

Post COP opportunities

#### **Greening CPEC**

RE Investments in CPEC

Green Financing Guidelines

Investment Framework for CPEC

#### **Corporate Investments**

Regulatory Frameworks

**Ease of Green Business** 

Economic Models for Green Projects

# NCET Research Themes 2022 Climate Change and Ecological Assessment

Natural Capital Forest Restoration-Assessing the Climate Change Impacts

**Ecological Assessment of Energy Sector Projects** 

## **NCET Working Themes (Group Based)**

Sr. No	Working Group	Key Research Themes
1	Renewable Energy Working Group	<ul> <li>Annual State of Renewables Report.</li> <li>Competitive Bidding of Renewable Energy.</li> <li>Pakistan Gas Sector Strategies.</li> <li>Green Infrastructure build-up.</li> <li>Greening CPEC.</li> <li>Energy Efficiency.</li> </ul>
2	Corporate Sustainability Group	<ul> <li>Competitive Trading Bilateral Contracts Market (CTBCM)</li> <li>Power Wheeling in Pakistan.</li> <li>Electric Vehicle Market Readiness.</li> <li>Corporate Investments.</li> <li>Green Financing Mechanisms.</li> <li>Industrial Decarbonization.</li> </ul>
3	Natural Capital Impact Group	<ul><li>Natural Capital Forest Restoration.</li><li>Ecological Assessment of Energy Sector Projects.</li></ul>

## **NCET Research Outputs (2022)**

### Working/ Policy Paper

- Annual State of Renewables Report.
- Role of private sector in Clean Energy Transition of Pakistan: A case of (CTBCM)
- Socio-Economic prospects of Electric Vehicle (EV) Policy 2019 and EV market preparedness of Pakistan
- Green financing guidelines and framework for China Pakistan Economic Corridor (CPEC)
- Greening CPEC: Green Transitions in Pakistan

### Policy Briefs

- Role of Academia in Clean Energy Transition of Pakistan
- Role of Start-ups in Clean Energy Transition in Pakistan
- Green Financing to Support Energy Transition in Pakistan
- Prospects of Green Bonds to support transition in Pakistan
- Role of Chinese and local financing institutions in greening CPEC
- Lessons from China: The need to switch towards a greener future

### Advocacy and Stakeholder Consultations (Feb – June)

PPD on "Electricity Market: The Case of CTBCM"

### March 2022

Quarterly Meeting of Founding Members

Goals and Progress

## End April

FGD on Role of Chinese & Local financing Institutions in Greening CPEC

PPD on "Electric Vehicle Market Readiness of Pakistan

0

**Late February** 

Capacity Building Workshop on "Green Financing Guidelines"

Mid-April

Consultative Workshop on "Roadmap for SDG-7 in Pakistan"

Mid June

### Advocacy and Stakeholder Consultations (July – Dec)

Late July

National Roundtable on "Green Bonds in Pakistan and how they can support Energy transition"

Sep-Oct

Result Validation and Consultation Sessions

**December** 

Quarterly Meeting of Founding Members

Key Takeaways and Policy Mapping

Annual Renewables Conference

National Conference on" Lessons from China: Need to Switch towards a Greener Future"

November

### **Communications and Outreach**
